# BABY MAP

In demographics, the **world population** is the total number of humans currently living, and was estimated to have reached **7.8 billion people** as of March 2020. It took over 200,000 years of human history for the world's population to reach 1 billion, and only 200 years more to reach 7 billion.

https://neal.fun/baby-map/

It Flashes every time a baby is born in that country. Now you need a chronometer to answer the following questions:

1. How many babies are born every minute? About _____babies.
2. Which three countries have the highest number of births (in order)? First _____, second _____ and third _____.
3. How long does it take since a Spaniard/Spanish baby is born? About _____.
4. How many British babies are born in three minutes?_____.
5. Write the correct nationalities. A baby from:
   i.e. Kenya – Kenyan.
   a. Japan - _____
   b. Egypt - _____
   c. Philippines - _____
   d. Mexico - _____
   e. Russia - _____
   f. The Netherlands - _____

Next , you complete **"Where are you from?" worksheet and send it to me** filling in your full name, level & group (5A-5B-5C), school subject (English) and my email address (**robertofp@educastur.org**)
